Should children not have access to the correct technology to access remote learning then parents should report this to the school by clicking [here](#)

Once you have completed the form a member of the school technical support team will be in touch to discuss your needs and how the school might be able to help.

Please only complete the form if children have a genuine need for support with accessing remote learning. The school has a limited supply of laptops/iPads, which children can borrow over the lockdown period.

### **Microsoft Teams**

The school has created Microsoft Teams accounts for children in Key Stage 1 and 2. This will add to our remote learning provision and offer the potential for **some** live learning sessions.

Over the next week you will receive a text from the school with your child's username and password. Please keep it safe and do not share it with your child. Guidance and expectation documents will be sent home to support parent/carers in due course. We will let you know when we are using it with your child's year group.
